<u>ADJOURN – 11:34</u> Gretchen Cosby adjourned the August 23, 2024, CMHOC Boad of Directors meeting at 11:34 am. Community Mental Health of Ottawa County Executive Directors Report Dr. Michael Brashears 08/23/24

The following is the Executive Directors report for the month of August 2024.

State Level Issues

1. Conflict -Free Access and Planning: Placed on hold by MDHHS no additional information given.

Regional Entity

- 1. New contract between CMHOC and the Lakeshore Regional Entity Members is being finalized. We have been operating under a contract developed in 2021. I am working with Corporate Council to finalize the review of the contract.
- 2. I have completed my process of reviewing key documents associated with the Regional Entity (Lakeshore Regional Entity) these documents include but not limited to the following:
 - a. Operating Agreement (2022)
 - b. Bylaws (2022)
 - c. Strategic plan
 - d. Contract Requirements (2021)
- 3. I will be presenting my analysis of these key documents to CMH Leadership and CMH Board in September 2024.

CMHOC

1. Specialized Residential Services Rate Setting Initiative:

Met with residential services providers on 8/19/24 and presented initial rate setting methodology to address the cost of care of specialized residential services. After a robust discussion it was clear that our current and proposed rate structure still does not address the cost of care variables associated with administrative and clinical oversight, and transportation cost related to Home and Community Based Services compliance. In addition, CMHOC needs to develop and implement the following:

- A. The development and implementation of a CMHOC Residential Level of Staff Support and Consumer Needs Assessment Tool.
- B. Utilization standards to ensure that Consumers are in the right level of care and in the least restrictive environments.
- C. Quality of Life measures to ensure that Consumers are engaged in meaningful daily activity and social relationships
- D. Development of additional residential options and expansion of the provider network.

2. Youth-to-Adult Transition

I have begun the process of evaluating the CMHOC Youth-Adult transition process and expectations. This will focus on but not limited to the following:

- a. I/DD and Autism service expectations for youth transition and the 18-26 population.
- b. Family Services to Adult MI system

It is my position that CMHOC should provide services to youth ID/DD youth 18–26year-olds regardless of if the ISD or other systems are involved. We must fill in the gaps.

3. Board and Community Education Sessions

Starting 9/06/24 I will be holding CMHOC Community education sessions every Friday from 12-1 at the James Street location focused on understanding the various CMH Funding sources and our obligations associated with them. This will include but not limited to the following:

- a. Medicaid Services and Funding (9/06/24)
- b. State and Local General Fund (9/13/24)
- c. CCBHC (9/20/24)
- d. Millage (9/27/24)
- e. Grants (10/4/24)

4. Millage Steering Committee

I will be presenting at the September Board meeting my proposed Millage fund oversight and coordination model based on the restructuring principles presented at the July CMHOC Board of Directors Meeting. I will send out materials for Board, Staff, and Stakeholder review prior to the September Board meeting.

5. Compassionate Heart Ministries Town Hall Meeting

Had the pleasure of meeting over 40 Parents, Guardians, and Consumers on 8/6/24 from 6-9PM to listen to concerns and questions related to CMH services. The following issues were raised:

- a. CLS authorization process is unclear and inconsistent
- b. CMH is denying service to anyone who is receiving services from the ISD
- c. Lack of respite and CLS providers
- d. Lack of clarity related to CMH Access standards
- e. Lack of responsiveness and customer service from CMH Staff
- f. Lack of CMH assistance to keep Consumers in their own homes with supports.
- g. Lack of community education on what services CMH provides.

6. CMHOC Systems Look

Over the past 90 days I have been completing the initial stages of the CMHOC System Look. The purpose of the Systems look is to complete a comprehensive evaluation of the following:

- a. *Foundational Source Review* (Key documents, contracts, policies, regulations) that tell us what we are **obligated to do** as a CMH. In essence, it's the **"What".**
- b. **Outcome Review:** Based on an understanding of what we are obligated to provide we then determine the desired outcomes and standards of excellence. In essence, the **"Why".**
- c. *Structural Review*: Review of the organizational structure to determine do we have the right organizational structure to meet our obligations. (staffing, hierarchy, provider network, functions of each department...) In essence the **"How".**
- d. **Process Review:** Review of our organizational processes, operational guidelines, assessment and measurement tools, procedures, and logic models. In Essence the "**How and When**"

I have completed the Foundational Source Review and will now be focusing on the Outcome and Structural Review and will be providing updates to the Board, CMH Leadership, CMH Employees, and Community in September and October 2024. I hope to have a comprehensive System Look Analysis complete in the next 90 days.

Respectfully Submitted - Red

Information regarding CCBHC Actual (Threshold: Surplus of 5% and deficit of 1%)	CCBHC costs continue to be higher than our PPS. Rehmann is analyzing our fee schedule and we will be updating this within the next month. Health/West has created an internal project improvement team of leadreship and executive members to thoroughly analyze CCBHC services, productivity, and rates. So far we have been able to reduce the negative variance by 1.64%. LRE Note: Deficit is the responsibility of the CCBHC and not the PIHP.	As Network180 continues to implement CCBHC, daily visits have not ramped up during the first few months, but we expect this to stabilize over the year. LRE Note: Deficit is the responsibility of the CCBHC and not the PIHP.	OnPoint has provided more daily visits than projected, resulting in higher revenue and surplus. LRE Note: Surplus is retained by the CCBHC and not the PIHP.	CCBHC distribution ahead of service activity. LRE Note: Surplus is retained by the CCBHC and not the PIHP.	CCBHC expense is higher due to increasing staff cost. West Michigan has implemented processes to enhance productly and reduce service cost. LRE Note: Deficit is the responsibility of the CCBHC and not the PIHP.	Surplus is used to cover IHIP administration on traditional capitation administration expenses. Amount may be incorrect because MDHNS has not provided the new FY24 CCBHC PIHP Administrative rates.
